Nancy Wynne Tells About St. Francis's Home for Convalescents' Market Day Fair-Other Fetes Discussed and a Tale or Two

the Fair for Convalescents out in Darby, ing firemen were that already. which is being gotten up by the Senior and Junior auxiliaries of the home.

Miss Florence Sibley is president this year, and certainly makes an able one. She is so used to good works she could not pass one by, it seems to me, for she has been for years interested in the Pennsylvania Association for Women Workers, which was started here some years ago by Miss Laura Platt, who was the first president. Then Miss Sibley became interested in St. Francis's Home and she added that good work to her already full calendar, and there is little doubt that the home will benefit by her knowledge and well-guided energy.

The Fair, or Market Day, will open on Friday morning, and last all of that day and all of Saturday. There will be all the usual things for sale, only that every one is making a special effort to make the things prettier than ever, and the "eats" better than ever, and to make more money than ever, and that will be going some, believe me; for these ardent workers for the Home for Convalescents have accumulated quite a bit of money at these annual market days.

THE home was started about five years ago by a number of women, prominent among them having been Mrs. Charles Emory Smith, a sister of Mrs. James Francis Sullivan. Mrs. Smith had long been visiting the sick and poor at Blockley with the Children of Mary, attached this city. She saw how often the patients dismissed from the hospital were really unable to take up their work at home, and that many returned to the wards within a few months after dismissal, down with the same illness again, because they had no time nor place to convalence. She interested Father Wastl, the chaplain at Blockley, and she interested the other women who visited with her, and finally from the little seed so quietly sown the house at Darby was founded. All of the women who had visited the sick at Blockley felt the need of such a place, and let me tell you there are many women who have and do visit that hospital, full of sick and sorely tried humanity, and those very Children of Mary, headed for forty years by Miss Julia Randall, have visited there for nearly half a century. They all knew the need and were more than glad to help. One gentleman gave \$500, another a thousand, the Sullivans gave a from all sides and the idea became an accomplished fact. In the few years 2400 patients have been encouraged back to health and happiness once more.

It was in the heart of many for many dertaking, but a year later entered a convent in New York, where she has since devoted her life to helping the poor.

MANY girls of the younger set of West Philadelphia have turned their aton and thoughts from parties and dances to interest themselves in this coming Market Day and Fair. A bunch of them are busy making hats and bags, which will be a part of their costumes on those two days. The hats are stunning; sweater. The bags are of black and white And all of these aides will be attached to the knitting table, which Mrs. Joseph Israel has in charge. The table itself will be trimmed in black and white, so I think the costumes will be quite fetching. A gypsy kettle hung on a tripod and used stay. as a melting pot for old gold and silver will be another attraction at this table.

Among the aides, who will certainly look very cunning in these smart costumes, will be Ruth Israel, Katharine Slater, Katharine Burns, Anne, Elizabeth and Mary Strain, Helen McNichol, Sophia and Ida Senger, Sophle Henderson, Caroline Farren, Agnes Kelley, Agnes Haggerty, Rose Freney, Mildred Butcher and Claudia Briggs.

COTTHESE small fire companies are all I right growls Mr. City Person, "but something always goes wrong just when they are needed most." And that, in a

word, is the moral of my little tale. You see, a certain nearby suburb had always prided itself on its very efficient fire service, and every once in a while you would see the shining red engine, with all its paraphernalia, charging down the roads, siren-whistle shricking and small dogs following along and barking. their heads off. Nine times out of tenthe engine would only be taking an airing, but what of that? It certainly did

look fine.

Well, one night not long ago a stable caught fire and immediately the dear, bright engine chortled with joy, for at last it would be pressed into service. But good night! Here it had been priding itself on its brand-new bell rope, and when the man on duty in the firehouse went to ring the bell to summon the rest of the firemen, in some unaccountable manner (the engine simply couldn't understand it) it refused to ring. At last, however, he got the men together and they dashed madly down the street. But when they reached the burning stable they found they would have to go back two blocks to attach the fire hose. So back they went, and can you blame them if they lost breath and patience before it was fixed? Then these gullant men started to drag the hose along the road toletare the stable all this while burning marrily on, with flames reaching higher and higher). They tugged and tugged when suddenly—ah, WHY; ah, HOW could it happen?—Friend Hose sprans a

HEAR a bit more of the Midway Car-I nival's plans now and again and they seem to be very elaborate. Marjory Taylor has gathered a goodly number of aides about her and both stile entrances at the ends of the street will be well guarded on October 17; for there will be Nancy Smythe, Emlyn Shipley, Helen Moore, Martha Henderson, Mary Dercum, Meta Janney, Mary Law, Margaretta Jeanes, Eleanor Verner, Mrs. Jacob Disston, Jr., Betsy Davis, Kathryn Cox, Nancy Dunning, Mabel Reed, Margaretta' Myers and Gainor Baird.

The latest plan is to have motors to give the kiddles rides for five cents, besides the rides in the pony and denkey carts and on the saddled small beastles. Mrs. Morgan Churchman is to have a booth devoted entirely to sporting articles, and Mrs. Charlie Wister will have the lingerie and embroideries.

DID you see Elise Hopkins Yarnall at the Sporting Carnival with that nice, big, brown, good-natured dog? When I saw her she was vainly trying to make him prick up his ears and look alive to have his "picture took," but Samson had no interest for anything but Elise's hand. Every time she snapped her fingers at to the Convent of the Sacred Heart, in arm's length, to make him look interested, he wagged his tail and smilingly walked over to get acquainted with the fingers. He was in such a wonderful humor that you couldn't bother him even by trying to take his picture. I heard an awfully amusing story about the same dog recently. He is an important part of the Hopkins possessions, and Eleanor Jones had him down South with her this year. When everybody was on the porch Samson was ALWAYS on the porch, too, waving his long tail in huge satisfaction if there were any guests. He is no small pup, as you may have seen, and his friendly advances became a bit too frequent one day for one of Eleanor's guests. The guest was a large young man with a correspondingly large bass voice, and as Samson came grinning over to start the fourth or fifth conversation the large young man suddenly dropped to his hands and knees on the floor of the porch and barked straight into the face of horse and wagon; furniture poured in his astounded vis-a-vis. Samson backed and the young man barked. The process continued until Samson, baffled and emporch. Thereafter all that the guest, who was a frequent one, had to do to get rid years and Mrs. Smith but voiced the de- of the dog was to lean over and bark at sires of her associates. Paradise Musical Society Gave Community Affair Friday and Saturday Nights

A very successful community carnival and musicale in aid of the Red Cross Society was given by the Paradise Musical Society. on Friday and Saturday evenings, on Twenty-ninth street from Allegheny avenue to Hunting Park avenue, and on Allegheny barrassed, was barked completely off the avenue from Twenty-ninth to Dover street. Autumn foliage and flowers, the Stars and Stripes, and red, white and blue bunting were mingled in the decorations. Japanese lanterns and colored electric buibs filuminated the various booths. There were all sorts of amusements; planty of good things for the inner man, and some things for sale for the outer man; dancing and splendid

This section in the Thirty-eighth Ward midway between Tioga and the Fails of Schuylkill some years ago was known as Paradise. There were about 100 old houses with old-fashioned pathways leading to them. Now that the city fathers have opened streets the old houses have been removed and a thriving new section of the city opened up, which is constantly growing, and the name Paradise lingers with the several organizations which form the musical society. They include the Para-mount Fife and Drum Corps, organized in 1915; the Paradise Reed Band, organized in 1911, and the winner of the first prize in the competition of reed bands in Philadelphia in 1915; the Northwest Military Band, with William T. Lewis, director, or-ganized in 1914, and the Fox Athletic Association, which was organized last March for the mental and physical improvement of the young men. About two months ago these active bodies of young men appreciating the musical talent of the neigh-berhood organized the Paradise Musical So-ciety to encourage and foster it and to arrange for its public presentation. As a large number of young men of this section have enlisted in the service of their country, it seemed fitting that the first public event of their combined efforts should be in aid of the Red Cross Society, to which the entire profits will be given, for the expenses will all be paid by the society.
